While most Brown Swiss calves are born white/cream in color, their color will change with age. Look for these characteristics when selecting a calf:

- A solid dark charcoal grey/black nose (no spots).
- Solid dark charcoal gray/black hooves (no discoloring).
- The switch should be a chocolate brown/black (no light shades).

2. Dairy Feeder May Tag-In & Evaluation:

At the May weigh-in, a third-party dairy evaluator hired by the Fair Board will inspect every dairy feeder to determine if it is a qualified single dairy breed male using breed standard color markings as described above. Calves evaluated for absence of severe abnormalities (i.e., Hernias) and desirable dairy conformation traits as well.
- B. Any decision made by the dairy evaluator on a dairy feeder’s qualification as a single dairy breed of Holstein or Brown Swiss is FINAL!
- C. All dairy feeders must be brought to the May Tag-In at the fairgrounds for tag-in, weigh-in, vaccination and deworming. This weight will serve as the starting weight to calculate Rate of Gain winners.
- D. The committee will not weigh-in or tag-in any feeder with an umbilical hernia brought to the May Tag-In.

3. Animal Replacement & Ear Tag Lose:

- A. A dairy feeder may be replaced under the following circumstances after receiving approval from the Jr. Fair Dairy Committee:

- Tagged dairy feeder dies between the May Tag-In date and June 1st
- Is ruled unqualified by the dairy evaluator at the May Tag-In
- Has an umbilical hernia as determined by the Fair Veterinarian at the May Tag-In

The replacement calf will not be eligible for Rate of Gain and must be tagged and photographed by a Jr. Fair Dairy Committee Member.

- C. If a feeder loses its ear tag, the exhibitor must report tag loss to the Ext. Office, call 937-398-7599 or e-mail house.18@osu.edu. The Extension Office will notify the chairperson of the Jr Fair Dairy Committee for the committee to retag the feeder.

Feeders must be de-wormed and vaccinated with a 4-way (P-13, BVD, I.B.R., BRSV), 7-way Clostridal vaccine and Haemophilus at the May Tag-In and vaccinated with a second dose of 4-way and 7-way **no** later than July 1. 2nd vaccinations are recommended to be given 4 to 6 weeks after May weigh-in.
