## in the Classroom & Afterschool

2021-2022 School Year

Dear Principal:

School is back in session! Now is the time to share with your teachers the schedule for **4-H STEM in the Classroom**. Your teachers have four different programs to choose from this year. Enclosed materials will help you learn about and share with your staff how 4-H can bring STEM to life in classrooms!

**21-22 4-H STEM in the Classroom & Afterschool Brochure** - Describes each of the programs offered including academic concepts taught, materials provided and classroom enrichment value. In addition, schools will want to check out **Real Money, Real World** for students to learn money management skills and **STEM Pathways** for students to put the engineering design process and scientific method to the test on real-world challenges.

Scan the QR Code to go to the on-line registration. You may also reach the on-line registration survey at <https://go.osu.edu/2022clarkco4hinthe classroomregistration>. **This year's enrollment fee is \$35.00 for participation in up to two different programs.** Payment is not required with registration. Please remit payment at least two weeks prior to scheduled program start date. Classroom enrollment fees help defray cost of consumables as well as replace equipment, add new resources and programs. We conduct teacher and user trainings in connection with pick-up times for materials to maximize classroom success and minimize travel costs.

**This year's enrollment fee is \$35.00 for participation in up to two different programs.** Payment is not required with registration. Please remit payment at least two weeks prior to scheduled program start date. Classroom enrollment fees help defray cost of consumables as well as replace equipment, add new resources and programs. We conduct teacher and user trainings in connection with pick-up times for materials to maximize classroom success and minimize travel costs.

We look forward to working with your staff and students. Join us, and others, in **"Learning by Doing" – The 4-H Way**. Your school can join the thousands of students and hundreds of teachers that have been experiencing -H in their classrooms. If you have questions or would like to schedule us to visit with you and/or other teachers at your school, please call or e-mail.

Sincerely,

Patty House  
Extension Educator
